

CITY STRIP DOORS

"All Gates may look alike! Only a CITY-GATE is built to last"

CITY GATES STRIP DOORS (also called strip curtains), are an affordable solution to managing your workplace environment, improving productivity, and increasing employee comfort. Strip doors help to separate environments, keeping elements out of (or in) a certain space. Protect employees and goods from adverse conditions by keeping out wind, cold/hot weather, noise, dust, fumes, insects and other elements. Save on heating/cooling costs by keeping the warm or air-conditioned air in. Unlike basic strip doors that are stationary, our doors roll up and down

Strip doors are applicable to virtually any industry, and CITY GATES has a wide variety of strip materials to fit your needs, including low temperature, ribbed, weld screen, anti-static and many other styles. Use industrial strip doors at various locations around your warehouse, manufacturing plant or industrial workplace, including: loading dock doors, large exterior doorways, conveyor passage enclosures, cold storage doors and much more.
