

CGRBDR Rubber Door

"All Gates may look alike! Only a CITY-GATE is built to last"

CITY-GATES rubber doors come in a wide variety of sizes to suit any commercial application, and combine extreme endurance with high-speed performance.

Our breakaway system allows the door to break free from the track if heavily impacted, allowing the CITY-GATES Rubber Door to be installed in high impact, high traffic areas without compromising security. The continuous curtain creates a thermal barrier that is unparalleled. No hinges, cables, pulleys or tension springs means there is no required maintenance. Reliability across a wide variety of temperatures (from -40 F to +180 F).

APPLICATIONS

- Loading docks
- Frequent impacts
- Parking garages
- Heavy manufacturing
- Industrial
- Corrosive environments

IMPACTABLE DESIGN
ELECTRIC REVERSING EDGE

NEMA-4 ENCLOSURE
MULTIPLE INPUTS FOR ACTIVATION FLEXIBILITY
SELF-DIAGNOSTIC LCD DISPLAY
PANEL MOUNTED OPEN/CLOSE/STOP

HIGH EFFICIENCY DIRECT DRIVE: CONTINUOUS DUTY
PLC (12" PER SECOND)
EMERGENCY HOIST

HIGH SECURITY; DUAL PLY FIBER REINFORCED CURTAIN
CORROSION PROOF
EXCELLENT THERMAL QUALITIES

FEATURES

- Powder-coated steel guides and full breakaway bottom bar
- No hinges, cables pulleys, tension springs or drums
- Emergency hoist operation
- 12" per second opening speed
- Curtain is resettable after impact
- Lifetime warranty on curtain
- 1 year full warranty on door and components
- Openings up to 15' x 15'
