

CITY-GATES FLOOR LOCK

"All Gates may look alike! Only a CITY-GATE is built to last"

DOME PADLOCK

- **Solid brass body covered with a polished inox stainless steel outer casing.** Steel fastening bracket for the roller shutter.
Brass floor anchoring device with sprung dust cover
Anchoring device brass ring nut.
The spherical shape provides excellent pull-resistance.
- **Locking pin with resistant to attack plug** which comes out of the body, crosses fastening bracket and perfectly fit in the floor anchoring device for fixing point unassailability.
- **Mechanism:** the application of Dome padlock is from top on the fastening bracket (anchored to the roller shutter); mechanism locks by pressing on floor anchoring device spring and then by turning 90° anticlockwise to block locking pin inside the anchoring device.
- **7 pin security cylinder with pull-resistant plug.**
- Supplied with **2 nickel plated brass keys** **Top Security profile** with comfortable grip allowing both vertical pressure and Dome Padlock rotation.
Key removable only in locked position.
- Dome Padlock **perfectly fits** with a number of previously installed floor anchoring devices.
